SUMMARY

Computer Engineering graduate with hands-on experience developing software applications and AI-powered solutions using Python, JavaScript, FastAPI, REST APIs, databases, and modern AI technologies. Experienced in building projects end-to-end, from planning and development to testing, troubleshooting, deployment, and documentation. Strong foundation in software development, problem-solving, and technical troubleshooting, with a passion for turning ideas into practical, user-focused applications. Eager to contribute as a Junior Software & AI Developer while continuing to grow in full-stack development, AI application development, and modern software engineering practices.

PROFESSIONAL EXPERIENCE

Production Monitoring Agent – DataCentric Corporation

Oct 2025 – March 2026

- Monitored live sports events and real-time operations across multiple platforms.
- Identified issues, created incident tickets in Freshdesk, and coordinated with internal teams.
- Escalated unresolved incidents to senior support teams for timely investigation and resolution.
- Updated and tracked incident tickets to ensure timely resolution.
- Documented incidents and maintained accurate operational reports.
- Worked under pressure while managing multiple live events and meeting strict deadlines.
- Followed standard operating procedures (SOPs) to ensure service quality.

EDUCATION

Bachelor of Science in Computer Engineering

Sept 2022 – Aug 2026

Makati Science Technological Institute of the Philippines – Sta. Mesa, Manila

TECHNICAL SKILLS

- **Programming:** Java, Python, JavaScript, SQL
- **Frontend:** HTML, CSS, React
- **Backend & APIs:** Spring Boot, FastAPI, REST APIs
- **AI & Application Development:** LLM Integration, AI APIs, Claude Code, Opencode, Google Gemini
- **Databases:** PostgreSQL, MySQL, SQLite, Firebase
- **Deployment & Cloud:** Docker, Vercel, Render, GitHub Pages
- **Authentication:** JWT, Google OAuth
- **Tools & Development:** Git, GitHub, VS Code, IntelliJ IDEA, Postman, pgAdmin

SOFT SKILLS

- Communication
 - Problem Solving
 - Teamwork
- Attention to Detail
 - Time Management
 - Adaptability
- Ability to Work Under Pressure
 - Documentation
